Organizing Committee

Title and Name	Institution	Address	Country	email

Abstract

please provide a summary of the event and its results suitable for a public audience; no more than two pages

Overall Evaluation

evaluate the event overall; was it successful in achieving its objectives? in other ways? what was particularly good/disappointing?

Audience

give a general characterization of the attendees/trainees (not a list of names)

Event Programme

describe the programme in detail including all speakers and talk titles as well as talk abstracts if available; please highlight any events, speakers, or presentations which were particularly good or disappointing

Event Logistics

please describe the location and the logistics process (travel/accommodations/etc.); what worked well and what would you do differently? was the location satisfactory?

Impact

please assess the projected impact of this event on attendees as well as the wider scientific/international community and/or NATO, as appropriate; are any spin-off or follow-on activities in preparation?

Media Coverage

was there any press/public coverage of the event? please provide links or copies

Publication

will you publish a book in the NATO Science Series? if not are any other publications planned? if so, please give the title volume and series (if any), the names, institutional affiliations, and countries of the volume editors, the publisher, and the expected date of publication if known.

Attachments and Photos

please attach electronic copies of any event publicity, or materials distributed to participants not included in earlier reports, along with any media or other coverage of the event; please attach photos taken at the event and highlight the best ones (no more than 10)
